ALOE CORP'S PLEDGE OF PURITY AND GUARANTEED BIOLOGICAL ACTIVITY

Aloecorp's ACTIVE ALOE® products not only meet or exceed the standards established by the International Aloe Science Council's (IASC) Certification Program for the determination of purity, but more importantly, guarantee the retention of biological activity through our unique, patent-pending manufacturing process. Additionally, Aloecorp has enhanced the efficacy provided by Nature by "shifting" the higher molecular weight polysaccharides into the range discovered to be the Highly Active Fraction. Only Aloecorp, through this patent-pending process, can claim the retention of this fraction and, thereby, consistently guarantee the retention of biological activity – not simply the "chemistry" of Aloe Vera. Aloecorp ACTIVE ALOE® brand products also guarantee the presence of 10% by weight polysaccharides for enhanced biological activity.

ACTIVE-ALOE® and CERTIFIED PLUS® are Registered Trademarks of Aloecorp.
